

E.S.C.H.

Manufacturer and supplier
of pneumatic conveying systems and environmental technology

Vocational training

Metalworker (m/f/d)

Specialization: Construction Technology

Your craftsmanship shapes unique systems worldwide that set standards in innovation.

Are you looking for an apprenticeship that challenges you technically and at the same time gives you the opportunity to work on innovative and sustainable solutions for the future? **Then you are exactly right at E.S.C.H. GmbH.** We offer you not only a solid training in the field of metal construction but also the chance to participate in projects related to environmental protection, climate protection, circular economy, and pneumatic conveying technology for bulk materials.
You're in!

What makes our training special?

- **Diverse & Exciting**

You will learn everything – from welding and assembling components to creating complex assemblies and metal constructions, both manually and mechanically producing and assembling them. You can rely on a wide range of manufacturing techniques and learn something new every day.

- **Precision & Technology**

You will develop deep knowledge in construction engineering and apply it directly in practical projects. Precision is the key here – and you will master it.

- **Innovative Technologies**

You work on conveyor systems and technologies that play an important role in various industries worldwide and continue to be developed.

- **Research & Technical Versatility**

You are part of the team working on innovative solutions for water and gas treatment as well as sustainability. Your work supports the development of new processes and technologies that are used in industry and shape the world of tomorrow.

This awaits you:

- **3,5 years of vocational training**, which will make you a genuine E.S.C.H. metalworker.
- **Teamwork**, a work environment with creative minds, and plenty of opportunities to really get started with us even after your vocational training.
- **Travel cost reimbursement** for your courses and vocational schools.
- **Extra health insurance** with up to € 300 per year.
- **SaWi-Card** your card for regional, tax-free benefits. Whether shopping, dining out, or booking travel: You can save your credit for up to 36 months and use it at over 100 acceptance points exactly as you wish.

What you bring with you:

- **Technical interest and skills.** You have an interest in metal technology and are fascinated by innovative technologies.
- **Practical skills** and the willingness to learn new things – you are a doer.
- At least a secondary school leaving certificate.
